Our Main Ingredients

HARUMANIS

Mangifera indica Linn. (MA 128)

Harumanis is one of the rarest and unique mango-type species in Malaysia and is only available in the short season (around March to May). Harumanis is high in soluble fiber which is good for human digestion. It also has high nutritional values, and rich vitamins A, B, C, Magnesium, and Potassium with a sweet fragrance and unique taste.

LATOK

Caulerpa lentillifera

Latok is high in collagen sources. It contains iron, zinc, calcium, and fiber. Thus, it is even recommended to be consumed by pregnant women, adolescents, and teenagers for its high calcium content in their body growth and development. Latok also has large amounts of polysaccharides as an excellent source of dietary soluble fiber.

ATHANLIZ INNOVATIONS SDN BHD (SA0580472-X)

Our Nature's Pride in Your Hand

All products are specially formulated by Malaysian researchers and scholars from the University of Technology MARA, Malaysia. All activities are under Research & Development team to produce a distinctive and exquisite result using active ingredients of Harumanis and Latok extracts

Because facial cleansing bars are gentle, they won't leave your skin feeling itchy, and you can feel fantastic and refreshed throughout the entire day 		
<p>Innovative ideas</p> <p>Beauty soap bar is formulated for skin treatment using our premium ingredients with a strong Harumanis scent and collagen-based Latok extract. The less foamy formula is due to the minimal chemical compounds used in our soap bar. After use, only the excess oil is removed from the skin surface without making the skin dry. Mint is added for a cooling effect to leave your skin fresh.</p>		
<p>Key ingredients</p> <p>Sodium palmate, Glycerin, Aqua, Sucrose, Cocamidopropyl betaine, Mangifera indica Linn fruit extract, Soluble collagen, Caulerpa lentillifera extract, Menthol, Ascorbyl glucosid</p>		

LINDIFERA BEAUTY SCRUB

Nett Weight	Skin Type	Selling Price
100 Gram	All	99 MYR
<p>Benefit</p> <ul style="list-style-type: none"> It improves skin tone and texture. It unclogs pores. Our pores can get clogged from a build-up of sebum (naturally occurring oil in our skin), as well as dirt and grime from pollution, sweat, and general everyday life – which can lead to the appearance of spots Salt texture in this scrub helps as natural exfoliants agent to break down dry and dead skin while smoothing texture, meaning the skin looks more uniform over time. Any appearance of acne scars, dark spots or hyperpigmentation will soon be reduced It helps your skincare absorb faster. If your skin has a thick layer of dead skin cells, your serum and moisturizer will have to work harder to penetrate the layers of the skin they are trying to reach. 		
<p>Innovative ideas</p> <p>Instead of using chemical exfoliant agent, we used a Himalayan Sea Salt to give a rough texture to the scrub. Combining few types of butter to make sure it is natural based product instead of using a chemical wax. Thus, this scrub will react accordingly under different room temperature (freezing when it is cold, and a little bit melting when in hot temperature- just same like your butter for bread in the table!). The sweet fragrance of Harumanis itself makes your beauty routine so fantastic</p>		
<p>Key ingredients</p> <p>Aqua, Himalayan Sea salt, Cocamidopropyl betaine, Butyrospermum parkii (shea butter), Cellulose, Theobroma cacao (cacao) seed butter, Soluble collagen, Mangifera indica Linn (mango) fruit extract, Stearic acid, Olea europaea (olive) fruit oil, Caulerpa lentillifera extract, Menthol, Persea gratissima (avocado) fruit powder, Ascorbyl glucoside</p>
